## Parents & Guardians/Students

Whiteoak JH/HS School is beginning the implementation process of our Positive Behavioral Interventions and Supports (P.B.I.S.) program to further support our Character Education program. In addition to our PBIS program we also will be incorporating our Character Strong Curriculum. This program aims to highlight and celebrate positive behavior through a designed reward system. P.B.I.S. also supplies students with skills to handle potentially negative situations and think about the best course of action.

Having a school-wide behavioral approach incorporates everyone. Students are able to see that we all support them and equally contribute to our school's success and future. The students, along with their teachers, have designed an expectation matrix for the Hallways, Restroom, Assembly, Bus, Cafeteria, Library and classrooms. These expectations are posted in the specific areas and are attached.

Whiteoak JH/HS has adopted the acronym C.A.T.S. (Caring, Achievement, Teamwork and Safety). When you exhibit a positive desired behavior, we will reward you with a Wildcat Buck. These Wildcat Bucks are used to reemphasize and reward positive behaviors.

Our building has been updated with PBIS signage that will allow our students daily reminders of PBIS expectations. We also have activities to kick off our PBIS program with daily activities for students to review our behavioral expectations daily. We are excited to create and maintain positive change throughout our building

Sincerely,

Mr. Jason Iles
